Federal Landscape and Trends

• Many agencies have programs and funding opportunities restricted to HSIs / MSIs, but these focus on increasing participation
• Agencies are interested in research activities involving collaboration with Mexico, but the project must have clear benefits to the U.S. side
• Many projects at related university centers are funded by foundations
• Business and advocacy organizations (like FWD.us and the Emerson Collective) are helping to bring attention to these issues
Federal Agencies that Support MSI Programs

• Department of Education (ED)
• National Science Foundation (NSF)
• National Endowment for the Humanities (NEH)
• United States Department of Agriculture (USDA)
• Department of Defense (DOD)
• Department of Homeland Security (DHS)
• National Institutes of Health (NIH)
• Department of Energy (DOE)
• Department of Housing and Urban Development (HUD)
• National Aeronautics and Space Administration (NASA)
• Department of Commerce (DOC)
Potential Funding Agencies

• Department of Education (ED)
  – Title VI

• National Science Foundation (NSF)
  – Social Behavioral and Economic Sciences (SBE)
  – Education and Human Resources (EHR)
  – 10 Big Ideas: INCLUDES: underrepresented populations in STEM, at least $30M in FY 19

• National Endowment for the Humanities (NEH)
  – Research and Education Programs
